

Job Title: Information Technology Solutions Architect

Established in 1987, Longhurst Consulting occupies a unique space in the IT world as one of the longest running IT companies in Canada. We have built up longstanding trusted customer relationships based on our strong commitment to superior customer service. Longhurst Consulting delivers World-Class IT Professional and Managed Services focusing on providing guidance and expertise to our valued customers to solve their IT challenges. We are the trusted source for everything IT related in Canada. We are committed to building a diverse and inclusive workforce that represents the many communities that we proudly serve throughout this beautiful country of ours.

Are you passionate about finding innovative and efficient solutions to complex IT problems? Do you have a natural ability to analyze and architect robust IT systems that meet the evolving needs of organizations? If so, we have an exciting opportunity for you!

At Longhurst Consulting we are seeking an experienced IT Solutions Architect to join our dynamic team. As an IT Solutions Architect, you will play a crucial role in designing, developing, and implementing scalable and reliable IT solutions for our clients. You will work closely with our clients and sales team to understand their business requirements and translate them into strategic designs that optimize IT infrastructure and align with their goals.

Responsibilities:

- Collaborate with clients to gather business requirements and understand their IT needs.
- Analyze existing IT infrastructure and identify areas for improvement.
- Design and implement scalable and secure IT solutions to meet client requirements. Develop comprehensive architecture plans, including system specifications, integration processes, and data flows.
- Provide guidance and support to development teams throughout the implementation process.
- Conduct regular assessments of system performance and identify opportunities for optimization.
- Stay up to date with the latest trends and technologies in IT architecture and make recommendations for continuous improvement.
- Collaborate with cross-functional teams, including project managers, engineers, and developers.
- Requirements:
- Bachelor's degree in computer science, Information Technology, or a related field (or equivalent practical experience).
- Eight (8+) years sales experience in the Information Technology Industry, preferably with at least ten (10+) years' solutions architect experience in the Information Technology Industry.
- Strong knowledge of IT architecture frameworks.
- Identifying resources/work streams and assigns responsibilities.
- Comfortable leading discussions and regularly communicating with senior leadership on program status and escalations.
- Experience in designing and implementing complex, distributed, and scalable IT solutions.
- Deploy, provision, and manage multiple Azure infrastructure and network security.
- Manage master images and associated operating system, application, and security upgrades.
- Migrate, deploy, and provision business applications and databases.
- Demonstrated experience with analysis, architecture, design, and technical oversight of complex technology projects.

- Must have superior attention to details.
- Must have an ability to be strategic and execute fast in a fast-paced environment.
- Must be motivated and ambitious, interested in personal growth and development.
- Familiarity with cloud computing platforms (e.g., AWS, Azure, Google Cloud).
- Excellent analytical and problem-solving skills.
- Effective communication and interpersonal skills.

Joining Longhurst IT means being part of a talented team dedicated to delivering cutting-edge IT solutions to our clients. We offer an inclusive and collaborative work environment that encourages creativity, growth, and professional development. Longhurst Consulting offers continued education for professional development.

If you are passionate about technology and possess the skills and experience necessary to excel as an IT Solutions Architect, we would love to hear from you. Apply today and help shape the future of IT infrastructure!

To apply, please send your resume and cover letter to steve@longhurstconsulting.com with the subject line "IT Solutions Architect Application." Note that only shortlisted candidates will be contacted for interviews.

Longhurst Consulting is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
